Recommended Roadmap

This academic roadmap provides general guidance about recommended courses and tasks for your **A.A. (Baccalaureate Transfer) Major in Architecture**. For specific guidance about your individual academic degree plan, please see an advisor. Also refer to the College Catalog for additional information. **Full-time students will refer to the term-by-term recommendations, and part-time students will take courses in the order listed.**

The A.A. (Baccalaureate Transfer) Major in Architecture includes an **Algebra Through Calculus math pathway**. This pathway is intended for students whose academic program requires a foundation of algebra, followed by a sequence of courses that lead to calculus.

In addition to the general education, transfer prerequisites, and A.A. elective courses listed on this roadmap, a transfer major in Architecture requires the following prerequisites, which are not available at FSCJ: ARC X702 (three credit hours), ARC X301 (four credit hours), ARC X302 (four credit hours), ARC X701 (three credit hours), ARC X201 (two credit hours), ARC X303 (five credit hours), ARC X304 (five credit hours), ARC X180 (three credit hours), ARC X501 (four credit hours), and ARC X470 or ARC X461 (three credit hours).

Students should work with an advisor for assistance with contacting their intended transfer university (e.g., UF, UCF, FAMU, or FAU) about satisfying Architecture prerequisites.

Important for You to Know (continued)

This academic roadmap does not include developmental education courses in reading, writing, and/or mathematics that you may be required to take. In addition, it does not include MAT 1033: Intermediate Algebra, which, for many students, is a prerequisite course for MAC 1105. Students who wish to receive additional support with algebra may opt to take MAC 1105C: College Algebra Enhanced (5 credits). Please consult with an advisor for individual assistance.

Instead of taking MAC 1140 and MAC 1114, students may opt to take MAC 1147: Precalculus Algebra and Trigonometry if they meet the following enrollment requirements:

- Earned a B or higher in MAC 1105 or MAC 1105C or a satisfactory score on a placement test;
- Satisfactorily completed high school trigonometry.

Students are required to take one HUM-prefix course. In addition, at least one course must come from the State Core (denoted with * in the College Catalog).

Students who enter a Florida College System institution in academic year 2014-2015 (and thereafter) must demonstrate **competency in a foreign language** (Florida Statute 1007.25). Students can demonstrate the required competency in one of three ways:

- Earning two high school credits in the same foreign language;
- Completing a sequence of two college-credit courses in a single foreign language;
- Achieving the required level on a language proficiency exam from the American Council for the Teaching of Foreign Languages (ACTFL).

College-level foreign language courses count as A.A. electives and are applied toward your twenty-four hours of required A.A. electives.

Prior to the award of an associate in arts degree, students initially entering a Florida College System institution in the 2021-22 academic year, and thereafter, must demonstrate **competency in civic literacy** by successfully completing one of two civic literacy courses with a "C" or higher AND by achieving the standard score on one of four approved assessments before graduation (section 1007.25(4), Florida Statutes, and Rule 6A-10.02413, Florida Administrative Code).
