

## About the Program

The Associate in Science (A.S.) Degree in Network Systems Technology provides students with computer-related technical skills for the I.T. industry.

Students may focus one of the following tracks: Network Support Technician, Network Infrastructure, Advanced Network Visualization, Digital Forensics, Network Enterprise Administration or IP Communications.

This program requires a **minimum of 60 credit hours**. Total program hours may vary based on the student's individual academic degree plan. This program **is eligible** for financial aid.

## Program Requirements

Students must fulfill all requirements outlined in the college catalog.

## Important for You to Know

**This academic roadmap does not include** developmental education courses in reading, writing, and/or mathematics or other prerequisite courses that you may be required to take. In addition, it does not include program graduation requirements.

Upon completion of this program, student will be prepared to pursue industry recognized certifications such as CompTIA's A+ Microcomputer Technician certification, Network+, Security+, Microsoft, VMware, Citrix, and Cisco.

**Alternative starting or completion points include:** Network Support Technician (T.C.), Network Infrastructure (T.C.), Advanced Network Virtualization (T.C.), Digital Forensics (T.C.), Network Enterprise Administration (T.C.), and IP Communications (T.C.).

## Sample Roadmap

This sample roadmap shows one possible pathway to program completion and may not be appropriate for all students. Roadmap sequence may vary based on the student's selected program track.

Prior to enrolling in classes, please **meet with an advisor** for specific guidance about your individual academic degree plan. Some courses are offered only once per year; advising is critical for course progression.

*\*See the **program requirements** for general education and professional elective course options.*

This program includes a **Mathematical Thinking in Context math pathway**. This pathway is intended for students in the broadest range of programs of study. In this pathway, students will explore a variety of mathematical concepts utilizing multiple ways of thinking to formulate and solve problems in context.

### Term 1

Course	Credits
ENC 1101 - English Composition I <b>or</b> ENC 1101C - English Composition I Enhanced	3-4
General Education Mathematics course	3-5
CTS 1131C - Hardware Configuration	3
CTS 1133C - Software Configuration	3

### Term 2

Course	Credits
CTS 1154C - Technical Support	3
CTS 1120C - Fundamentals of Information Security	3
CNT 1015C - Operating Systems Foundations	3
CET 2600C - Network Fundamentals (Cisco 1)	3

### Term 3

Course	Credits
CTS 2655C - Switching, Routing, and Wireless Essentials (Cisco 2)	4
CTS 1334C - Server Configuration	4
Professional Elective course	4

### Term 4

Course	Credits
AMH 2010 - United States History to 1877 <b>or</b> AMH 2020 - United States History from 1877 to the Present <b>or</b> POS 2041 - American Federal Government	3
General Education Humanities Core course	3
Professional Elective course	4
Professional Elective course	4

### Term 5

Course	Credits
General Education Natural Sciences Core course	3-4
CNT 2942 - Cooperative Education (Internship)	2
Professional Elective course	4
Professional Elective course	2-4
