

About the Program

The Associate in Science (A.S.) Degree in Accounting Technology prepares students for entry-level accounting opportunities. Graduates possess the knowledge and skills needed for careers such as accounts receivable coordinators, accounts payable coordinators, bookkeepers, credit and collection coordinators, payroll coordinators, and other accounting paraprofessionals in accounting occupations.

This program requires a **minimum of 60 credit hours**. Total program hours may vary based on the student's individual academic degree plan. This program **is eligible** for financial aid.

Program Accreditation

The A.S. Accounting Technology degree program is accredited by the Accreditation Council for Business Schools and Programs (ACBSP). For more information about ACBSP, visit acbsp.org.

Program Requirements

Students must fulfill all requirements outlined in the college catalog.

Important for You to Know

This academic roadmap does not include developmental education courses in reading, writing, and/or mathematics or other prerequisite courses that you may be required to take. In addition, it does not include program graduation requirements.

Alternative starting or completion points include: Accounting Technology Management (T.C.), Accounting Technology Operations (T.C.), Accounting Technology Specialist (T.C.), Banking Specialist - Financial Services (FinTech) (T.C.).

Sample Roadmap

This roadmap shows one possible pathway to complete this program. While suitable for many students, this pathway may not represent the best option for all students.

Prior to enrolling in classes, please **meet with an advisor** for specific guidance about your individual academic degree plan. Some courses are offered only once per year; advising is critical for course progression.

See the **program requirements for general education and professional elective course options.*

This program includes an **Algebra Through Calculus math pathway**. This pathway is intended for students whose academic program requires a foundation of algebra, followed by a sequence of courses that may lead to calculus.

Term 1

Course	Credits
