

About the Program

The Technical Certificate (T.C.) in Digital Forensics prepares students for a career in the field of data forensics. Students develop a solid foundation in digital forensics and how it applies to computer hardware, software, and peripherals.

This program requires a **minimum of 32 credit hours**. Total program hours may vary based on the student's individual academic degree plan. This program **is eligible** for financial aid.

Program Requirements

Students must fulfill all requirements outlined in the college catalog.

Important for You to Know

This academic roadmap does not include developmental education courses in reading, writing, and/or mathematics or other prerequisite courses that you may be required to take. In addition, it does not include technical certificate graduation requirements.

Students in this certificate program **are not required** to complete math courses unless they are listed as part of the certificate program. Upon successful completion of the program, students may receive articulated college credit toward the Network Systems Technology (2156) (A.S.) degree, which includes a **Mathematical Thinking in Context math pathway**. This pathway is intended for students in the broadest range of programs of study. In this pathway, students will explore a variety of mathematical concepts utilizing multiple ways of thinking to formulate and solve problems in context.

Additional Information

- ⇒ **Program Information**, including advisor contact details: <https://www.fscj.edu/6112>.
- ⇒ **Technical Certificate Information**, including graduation requirements: <https://catalog.fscj.edu/academics/degree-certificate-programs/technical-certificates>.

- ⇒ **Math Pathways Information**: <https://catalog.fscj.edu/academics/math-pathways>.

Sample Roadmap

This sample roadmap shows one possible pathway to program completion and may not be appropriate for all students.

Prior to enrolling in classes, please **meet with an advisor** for specific guidance about your individual academic plan. Some courses are offered only once per year; advising is critical for course progression.

Term 1

Course	Credits
CTS 1131C - Hardware Configuration	3
CTS 1133C - Software Configuration	3
CNT 1015C - Operating Systems Foundations	3

Term 2

Course	Credits
CTS 1334C - Server Configuration	4
CTS 1120C - Fundamentals of Information Security	3

Term 3

Course	Credits
CAP 2140C - Data Forensics I	4
CTS 2662 - Voice over IP (VoIP)	4

Term 4

Course	Credits
CNT 2404 - Intrusion Detection Systems and Auditing	4
CAP 2141C - Data Forensics II - Advanced	4
